

# RECHARGE WEDNESDAYS

As a result of intense online interactions with students during Level 4 we are going to take a break from an online presence on Wednesdays.

Our Board Chair supports this decision, as he is also responsible for the wellbeing of staff.

So, while in Levels 3 & 4, staff will have Wednesdays to recharge their batteries. This will also enable families to take a break from the daily commitment to online learning. If you want your children to continue their learning routines that is fine with us. However, no emails or Seesaw posts or communications to teachers please.

We know that many parents are trying to juggle their own commitments working from home, as well as supervising children's learning, getting them to zoom sessions on time etc. We have staff in the same position.

Staff will be able to commit to their other school responsibilities without worrying about online interactions throughout the day.

Thank you for your understanding.
